Battery Operated Beacons

This battery operated LED emergency beacon is shock resistant, waterproof and durable. The unit is magnetic, allowing it to be attached to metal surfaces, and can be recharged using a 12V car charger or a 230V wall charger.

Available individually or in a case of six, in Red, Amber, Green, Blue, Clear and Yellow.

Motor Driven Sirens

A choice of compact and powerful sirens constructed from a UV stabilised polycarbonate - ideal for all signalling or alarm applications where a lightweight motorised siren is required. Or alternatively, robust, pressure die cast aluminium sirens with a powerful lower frequency sound output. Suitable for all applications, particularly ideal for use in remote areas.
